## Rare Anatek Pocket THRU -EUR35 with FREE shipping worldwide

Posted by artfulideas - 2012/10/02 22:24

---

Rare Anatek Pocket Thru for MIDI. From back when they actually made stuff like this. Says 1988 on it! Works fine, and works without batteries or anything too. Pretty handy, it sends MIDI from 1 input into 3 outputs, so youre basically gaining 2 additional outputs. Very simple and handy.

EUR35 with free shipping worldwide from Germany.

Check me out in the good trader thread, I sold a couple machinedrums and other things on here

Thanks for looking <http://elektron-users.com/images/fbfiles/images/imgres.jpeg>
