## Elektron Patches (poll & discussion)

Hello all. Just before the holidays Capsella proposed that we get some unofficial patches made. We'll Elektron graced us with permission, so now it's time to vote on which graphic we're going to put into production.

Here's the choices:

#1: <http://elektron-users.com/dmdocuments/logo1.gif>

#2: <http://elektron-users.com/dmdocuments/logo2.gif>

#3: <http://elektron-users.com/dmdocuments/logo3.gif>

The poll end on the 18th. I've added an additional question about the possibility of creating a Elektron-Users patch. If there's enough interest, I'll design some.

i didn't want to skew the results of the poll and vote multiple times, but i would also be interested in an elektron-users patch in the future.

edit: thanks for adding a separate poll, actuel!

go #2! wooo!
