
How do you get...

Posted by Indigo333 - 2010/11/13 07:25

Howdy my Ninja's...

I am trying to figure out how to double the resonance after I have the bpm cranked up to 300... I am building basslines and using the imp cranked to 300 and then doubled. How do you double the resolution to 600?_?:huh:
Thanks in advance!_!

in the step area (16x16 etc. etc)

set the x1 to x2

peace
