
FORUM ADMINS: SoundCloud player in forums

Posted by johnathon doe - 2011/01/20 19:45

is THIS possible forum admins?

anyone else familiar with how this works?

would love to have it work directly in our posts.

peace

extra thought,

if the sidebar on any page had an elektron-users soundcloud player.
as people dropboxed from their own account it would pull from it.

maybe a way to break that box out.

new tracks/sets always right in the player to check out.

peace

great idea. i know i don't have the privileges to pull this off, but i know something has been in the works with the site.
hopefully this functionality can be added.
