
Tons of Samples for your OT/Other Sampler

Posted by RubixGroove - 2011/02/17 18:29

I have a LOT of cool/tasteful/untasteful/useful/not at all useful samples of all shapes & sizes on my external drive. I've been collecting them now for a little while - tons of stuff. I cannot even start listing! Out of my collection - the only ones that aren't "free to use" are the clips of movie dialogue. If anyone here's interested... shoot me a PM.

Note - most of these are random breaks (recorded or created in a DAW), weird synthy stuff, stabs, pads, and other misc. strange sounds. Just fodder for the muse... nothing more or less.

PEACE! :kiss:
