
Ruinzhatova royalty free drum loops.

Posted by Oliver808 - 2011/05/28 21:20

these are royalty free drum loops/samples from an extremely rare Japanese Ruins-spinoff band Ruinzhatova, which were provided with the actual album "Dream, Sea, Vacancy, Metropolis" I thought i'd share these with you because they have really good sound quality for the jazz minded samplers etc. Grab them if you wish.. i'm taking this inside Octatrack now.. let the fiddling commence.
