I've obviously done it before but I've been trying to change my avatar today (155 x 75, JPEG) but when I click 'Upload' I just get a blank page that has a link saying 'Submit' and then from there it just goes back to my profile and nothing changes.

LOL

I've been treating (she says 'subjecting') the wife to Space 1999 and we were watching an episode where one of the crew was in the sick bay with some kind of electronic device on his chest (as you can see in the picture), rocking his head from side to side in pain.

My wife said "Oh my god, that looks like you in bed with your Octatrack!"

Which, admittedly, is pretty accurate.

:laugh:
