## Octa cue out question

Posted by tIB - 2011/09/27 20:13

---

Is sending audio out of the cue outs as simple as pressing cue and raising the level? it should be... and i think it is... so why am I getting no audio from my cue out?

---

Hold CUE and hit a Track key to send that Track to the Cue outs.

i think this is a turning point...

after months of trying not to Im going to have to rtfm and work through it. I didnt have to do that with either monomachine or machinedrum... i got steady before the manual came out. it just doesnt feel like an elektron machine to me.
