
Midi to Mono/machinedrum

Posted by beginnerJones - 2011/11/12 07:26

Hi all, this is first post to me, i looking this forum couple time, and this is nice.
I have a question, i have really many .mid files in my computer, and i think i want use those in my monomachine and machinedrum, so could i send that computer>machine via midi?

All Good.

hi and :welcome:

you can play the MD/MNM from an external sequencer with those fiules but there is no way to load midi files in their internal sequencers. hope that helps.
