Split personality?
Posted by poonti - 2012/04/27 01:54

_____

I changed my avatar, but on google chrome I see the old blue faced poonti, who had some sort of accident with a fence; on internet explorer I see the new babyface theremin freaky poonti!

Ghost in the machine? Some sort of cache demon? what up?

_____

awww, I liked the other one it was friendlier.

I'm scared.

_____

Creepy indeed :D

Try to flush your browser cache.
