
Possible sticky

Hey - I know the forum won't be around forever but maybe a "Do not reply to the spambots" sticky in the Gear section would save mods some trouble. Just an idea - I have seen the mods make this request from time to time. :beer:

Most people know not to -- it's been a while since someone has (sorry, Husc, don't mean to call you out).

Plus, a lot of people just don't pay attention to stickies... :dry:

Sounds good. Would have PM'd my suggestion to a mod but I heard it's not working.
