
Site down this morning?

Posted by futureimage - 2007/08/22 19:46

Was the site down this morning? It wouldn't load on Firefox and with IE it said "db connection failed". Was it the site or my crappy internet?

hrmmm. not sure. sometimes the host will shutdown for maintenance or something could've been wonky.

we'll live now :)

It was probably the site...I got that same message as well for a short period of time..

greetz,

M.
