## prog and psy trance Monomachine advice?

Posted by previewlounge - 2012/04/08 13:21

---

i would like to make some psychedelic and futuristic sounds or patterns with the Monomachine, advice greatly appreciated. :)

i'm working on some prog/psy sounds on the mono

here is a video: <http://youtu.be/zFFQYmdkiJQ>

the virus is also sequenced by the mono.

i can upload a syx file for the mono with some psy like sounds if you want

mainly i use the fm for some deep electrostatic scatter sounds,

the sid saw is biig for 303 sounds

the sid tri with some lfo automation on sync freq and pw

super wave trance lead and then add a lfo with sharp edges to the vol to creat a chopping effect,.....
