Can't upload my file.

Before, I couldn't delete my file, now I can't upload it!

The error it gives me is "Protector detects attacking actions." Cool! Wonder what that's all about.

Anyway, the file I'm trying to upload is also housed here, http://www.box.net/shared/8lzxtmk82v and its for the Machinedrum Pi contest.

Let me know when I can attempt to re-upload it.

Thanks!

hrmmm. Very weird. I haven't heard of this error or bug before. I would just try again in a bit. If it doesn't work. I can maybe upload for you and assign credit to you...not sure on that though.

Let me know if you have any further problems.

XOOPS doesn't seem to like filenames with dots in them. It's up now.
