
Confirmation: UW will have red screen

Posted by Acidfever - 2005/05/18 17:34

While waiting for my SPS1-UW to arrive i couldn't help wondering if the screen would be red or blue.

I asked Elektron support and sadly the screen will be red.

Sad but true!

Ah well.....

still, to my humble opinion, there's nothing wrong with the red, so: hoera! ;)

Red is kinda ok. Little hard on eyes after a while in a dark studio. But hey....we'll just make some light then. :-D
