
MD lab: Lemur

Posted by MK7 - 2013/04/05 21:07

What sounds do you achieve with a Lemur-controlled Machinedrum, for instance, using my template "Machinedrum Morphor"? :) The file is available in the download section (incl. documentation).

Rules: classic mode, one kit, one or several patterns, don't touch a knob on the MD.

First submission:

Machinedrum + Lemur = gorgeous!

Looking forward to listening to your posts :)
