A4 - Hi guys!

Posted by vonkhades - 2013/04/08 06:05

_____

First post over here... so I just got my very first synth (the A4), I love it and Im trying and learning new stuff in it, and I wanted to share this with you

http://i.imgur.com/EPpH5cZ.png

which are the destinations of Envs and LFOs... I made it because I was trying to design some specific round routes for control but realized not always you can send TO the destination you want, it will depend if its EnvF Enf2, LFO1 or LFO2.

LFO2 rules them all.

here is the link to to the diagram drawn with pen.
