FORUM BUG APRIL 2013

Posted by Signifier - 2013/04/10 03:49

―――――――――――――――――――――――

Hey Mr/Ms Moderators!

Why does the 'Forum' link on the top bar not work right now? Takes me to the Home page...
I can get to the forums through 'Recent Forum Topics' and then back-track to the relevant forum that way...

Seems to be happening after latest IE rollout, but may not be a user-side problem...

Thanks!
