
*** London Event *** BACK ON!

Posted by DTMT - 2012/10/17 02:14

Elektron Users London Gathering

Date: Saturday 3rd November, 6.00pm - 11.00pm

Venue: Lotus Lounge, Jetlag, 125 Cleveland Street, London, W1T 6QB

Who wants to play?

Who wants to come along for a bite to eat / a few drinks / a chat about music and synthesisers?

Let me know!

This is going to be a more casual affair than last time... I'm really keen to make this a regular event, so the simpler the better. Some key changes:

1. No cover charge. Come one, come all, and bring your friends!
2. The overall tone of the event will be (a little bit) more mellow than last time - think cafe gig rather than club gig!
3. Anyone can play, but it is going to have to be for the love of it and a few beers!

The only thing I would add is that the venue (which is the perfect size for this kind of event), is giving us the space for free (waving the minimum spend/deposit). Please let me know if you are seriously planning on coming along so I can enthuse the venue - if it looks like it will be a quiet one then we'll have to alter plans slightly - perhaps take a smaller space. Anyway, last time was epic so I'm sure we'll be just fine this time around...

Right then... let's go.

Hi

Don't know if you read my answer in the old thread, so here I go again.

Sorry but I can't make it anyway, cause my other gigs i London got moved to 2 weeks later and I can't take the trip twice.

I hope you guys have a super time and I wish I'll get a chance to meet you all and play the Elektrons some other time.

best

ringo

Re:* London Event *** POSTPONED**

Posted by DTMT - 2012/10/30 04:46

Guys I hate to do this, but I have to postpone the event. I am having a couple of issues with the venue that I hope will be resolved shortly.

I'll be directly contacting everyone that had confirmed they were playing or attending, but if anyone was planning on coming along and hadn't got in touch, please hang in there, a new date will be announced soon.

Please note, this is a postponement only! I will announce another date as soon as possible.

Really sorry to announce this, but I want to make sure everything will be as good as possible for everyone on the night. Last time was brilliant, and I don't want that changing with future events, so I need a few days to work through things with the venue.

Hi,
Just found this event, but no info if it happened after being postponed. Would definitely try to attend this one or a subsequent one.

Hi guys

Sorry for delay! Work is pretty unbearable at the moment - hence my chance to briefly check the forum at 6.00am before getting out of the house!

Thanks for the continued interest, the event will still be going ahead.

At the start of January the venue is finishing the installation of equipment allowing them to record and stream live video - including cameras, which were a pain in the ass to organise last time. Great news for our event as we'll be able to broadcast it.

Expect the date to be announced again very early in the new year...

More info to follow, but for the moment... save this date:

Saturday 16th February

The final arrangements are being made now, but it's shaping up to be a good one... and we may be lucky enough to have some special Swedish guests in residence on the night!

Agh what are the arrangements going to be? Funnily enough there's a modular synth meeting happening that day in Brighton in the daytime at which I'm giving a talk. Would be amazing if this is happening in the evening though - modular + Elektron set = hell yes.
