
Feature suggestions threads

Posted by pseen - 2013/05/26 17:38

I'm not sure exactly what the connection between this forum and Elektron is, but I have noticed the so called official feature suggestion threads for MD and MnM here.

I think it would be cool to make an Analog Four thread for feature suggestions, too. Even if there isn't necessarily an official connection between the forum and Elektron, it would be cool to discuss and dream up new features. If nothing else, it's enlightening to think about the limitations and beyond.

Whether the thread be named official or unofficial, "suggestions", "ideas", "requests" or whatever is up for discussion. I know Elektron are still working hard on the OS, would it seem rude to make such a thread now? Or is it a resource for the developers?

Please let me know what you think.

OK, this thread was bumped today, it's already on. I hadn't seen it until now.
