I'm Looking to sell my Monomachine SX 6, with the original packaging and manual. Perfect working condition, with some minor cosmetic scuffing on the corners and some hard to remove dust in some of the crevices.

\$1500 or best offer, plus shipping. (I actually have no idea what to expect, price-wise, because I can't find many examples of previous sales.)

Still trying to sell my SFX-6!

It's on ebay now, with a much lower starting price:
