_____

hey guys,
just wanna announce our 1st ever dubtechno event.

Echogarden is the place to be for everyone who's heart beats for dub techno. It's the place where dub meets deep, where the air is filled with echo and where chords and atmospheric sounds intermingle.

Yet, echogarden is about much more than just the music. It's about experiencing the adventure of linking sound, people and nature with all your senses. It's about people coming together to discover and celebrate a new kind of happening.

Be part of it: Join echogarden and make it flourish.
