
Populette Live at Boiler Room

Posted by pixelife - 2013/07/09 00:21

Hey Guys,

Thought you might be into this. Two of my best friends and label mates recently did a live session on Boiler Room NYC. It was a super great set and was very very hot in there. :beer: ;)

Lot's of gear being utilized. MFB 522, Obi SEM, Minitaur, and a few others I'm forgetting.

Populette are super good at the druggy, groovy techno.
