
Experimental music in Japan July-Aug 2013

Posted by kln - 2013/07/11 21:11

Can anyone suggest places for experimental music in Japan. I will go there in a week or so and will stay there until late Aug. I will travel around a lot so if anyone have suggestions or knowledge about great places for good music in Japan I would be very happy if you like to share it with me.

It could be concerts, festival or good sites about music in Japan.

:laugh:

I like a manners of music (not pop): noise, experimental, contemporary art, electroacoustic, free form jazz, minimal techno, traditional japanese music etc

best

/k

Not sure whether you'll be here in time, but we're doing vol. 3 of the Elektron System Exclusive event next Monday (July 15) at Saloon (B3 of Unit in Daikanyama) from 7 PM. If you're on fb, the event page is here: Elektron System Exclusive Vol. 3

Other than that, you might like some of the events at Super Deluxe in Nishi-azabu. On August 13, there's an event called Test Tone that is mostly noise/improv/experimental.

Wow, unfortunately I wont be able to make it on 15th. But I will try to make it for Test Tone

Thanks.

:-)
