
external in problem

Posted by fredbo - 2013/07/14 19:41

hy to everybody,
i don't succeed to filter external in drumbeat...
i plug signal on ext in jack...
i using track 1 to destinate treatment
i made a choice on both osc 1 ,2 ext L , ext R
i made turn up volume on fx track too
but i listen the sound clear and not filtered..
the track fx run and it's ok with reverb...ecc but only on thi track happen something
on track 1..only clear sound
any suggestion?
Many thanks
Fred

Do you have to place a trigger on the A4? You do with the other machines. Not in front of mine at the moment but give it a go.

Turn down ext in on fx track, make sure you have triggers on same track where osc 1&2 are defined as external l&r, you

might need to open filter a bit to hear, try that.
