
Pioneer RMX 1000 - have you used it?

Posted by MindRobber - 2013/07/11 02:28

Has anyone used the RMX 1000 to process your Elektron gear.

If so how did you like it?

I had an EFX1000 lying around & played with that for while. It worked great but I have the OT so it seemed pretty superfluous & I ended up selling it.

From what I've read on other forums, the RMX1000 is quite an improvement on the EFX whilst still being very easy to operate.
