
Looking for a Producer/collabor/partner in Berlin

Posted by Ringo KidF - 2013/08/15 22:06

Hi People

IÂ´m experienced producer working with Ableton Live and hardware samplers/synths/drummachines like Octatrack, A4, Shruthi-1 and OP-1.

I been out of the producer loop for the last 9 mounts due to fatherhood but IÂ´m on my way back and this time IÂ´ve decided to try to collaborate instead of working alone.

Lately I been into Flako, Gold Panda, Caribou, Junior Boys, LindstrÃm, Yuksek and a lot of unknown guys and girlz from the soundcloud.

IÂ´m looking for someone with creative ideas, music or promotion skills of some kind and at least 1 piece of equipment that they really love.

Someone with ambition to produce and release music, but also to get a live set on tour. A fellow Elektron lover and someone who wont be leaving Berlin by next semester would be a +.

If thatÂ´s you, then drop me a line and letÂ´s meet for a coffee and a chat!

best
