Mute / Grid / Machinedrum
Posted by redrik - 2013/08/15 23:12

Hey all !

A tips to mute tracks without left the mode grid on Machinedrum, please?

As far as I know, that is not possible. You'll have to switch mode or turn down individual track levels instead. (I assume you mean muting while in grid recording mode, right?)

With CC ? Hum...Oki !
I go tested with my BCR many thank !
