
How big/small is your room/studio?

Posted by darenager - 2013/08/21 04:55

Currently in a small room 10ft x 9ft, thinking of moving into an even smaller room 9ft x 6ft7 so was curious if anyone is using such a small room or maybe even smaller?

I'm still in the same closet. 10x4 I suppose... http://farm1.staticflickr.com/231/506950977_1d1de79944_o.jpg

old picture, now I have some different stuff and everything is wired up.

3 x 3 m...and I make pro recordings here...mainly vocal and some guitar stuff but with little effort you can make any room sounds good

of course I can't record a drum kit here, but I got a big studio near my house for this stuff
