MnM throwing down some really nice bass in there.

04.16 - nice

31.20 - nice

i like how you wind it down as the end comes along after a pretty fast paced ride most of the time. it's good inspiration for me as i prepare for some upcoming live events. thanks for sharing.

Cheers man! Yeah it seems like all the live sets I make have that shape, try to have a nice "lush" ending.
