
FT/FS: RT Spectralis 2

Posted by SpaceWaveInc - 2013/09/01 07:42

Hello. Not too long ago I picked up a Speckie 2, a very inspiring piece of kit if I may say so myself, but time spent with a semi-modular has naturally progressed into jumping head first into the modular world. Ideally I'd like to trade the unit for an Octatrack to replace my lack of drum machine in the aftermath of this, but I don't mind the idea of extra cash to fund more modules.

Let me know if you're interested. I'm located in Austin, Texas.
