
WTB : OCTATRACK (UK)

Posted by phillwilson - 2013/09/02 05:14

Hi there,

I have Â£650 for an Octatrack in good condition (I don't mind a little paint wear, don't need the box or manual but the encoders all gotta work 100% and it needs the PSU).

I've also got a great condition Electrix Repeater with the rare later OS (2.1.4) which I would be willing to trade for electron gear.

I'd like to trade in the UK to and from registered addresses for both of our safety.

you can check out my work [youtube.com/myonemanband](https://www.youtube.com/myonemanband) (I don't know if anyone else shares this, but I always feel safer knowing I am selling ot a real earhead).

PM me or email phillwilson at hotmail dot com

Thanks

Phill
