## WTT: (AU/WW) Elektron MonoMachine MkII -> Analog Four

Posted by Rusty - 2013/08/30 09:29

---

Quite simple really. :huh:

I have an Elektron MonoMachine MkII (sans plus drive) in basically mint condition. (boxed, power supply, manual)

I would like to swap it for an Elektron Analog Four in basically mint condition. (boxed, power supply, manual)

In Melbourne, Australia. Local swapsies would be excellent; but can see what could be done interstate / international.
