Heya :D Minimal vibes!

This just came out! I'd love to hear what you all think... it's been a bit.

I'm a sucker for minimal ;) but these are sounding great over my cans at work. Especially dug the Alexx Wolfe remix.

Curious about gear used & recording approach if you don't mind sharing :)

Love the 4th track! 3rd track is my next favorite. Very proper, down, and steady. I could see Art Department laying down the 4th track at 3am easily...

Fantastic! Especially liked the Sol & Sample remix and the last track, Ursa Minor. Will pop along to Beatport with my pocket money this week.
