
FS or Trade) Virus TI2 Desktop LA,CA

Posted by bandmasta - 2013/09/12 13:58

Hello.

I have a three-month-old Virus TI2.

I am the only owner. Everything works perfectly, and there is no cosmetic flaw at all.

I have everything from the factory.

I would like to sell it or trade with analogue synth that you have.

The reason why I want to let it go? Because this thing is so deep.

Deep is good to some people, but not for me. I am a simple man.

PM me the reasonable price if you want to buy it (you pay shipping)

If you live in LA, you can also pick it up. If you pay cash, I can give you discount.

If you want to trade, let me know what you have. If the price is not matched, you can pay

Extra or give me more instruments to match the price.

If you want, you can also text me. 626-297-8540.

I have sold several machines here. No one has complained. You know why.

Thanks.

I am looking for around \$1600. (Negotiable)

However, there will be discount when you pay cash.

I also accept trade. For instance, you give me your synth and pay extra if yours is cheaper.
