
FS: Electrix Repeater (UK)

Posted by phillwilson - 2013/09/13 23:08

Up for grabs is a great condition Electrix Repeater.

It is a later model with the 2.4.1 OS which adds some great extra functions to the original MIDI implimentation.

It comes with PSU, Manual and some of the rare Hitachi Chip CF cards to go with it (its picky)

I am asking Â£400 + P+P and ideally I would like ot deal within the UK.

I would also consider any trades.

thanks

Phill

Wow great price! If I did not already have 2 Repeaters I'd grab this, brilliant machines.
