MD MK2 + MNM MK1 - MIDI Settings

Posted by bebbo - 2013/09/16 02:16

Hello,

I am getting quite annoyed by the midi settings on my machines.

I have the midi going from the MNM to the MD.
But I have the following problems:

- When I change a parameter on MNM it changes some sounds also on the MD (I almost fixed but advices are welcome)
- Also commands like "clean pattern" on the MNM seems to affect the MD

I want to have the two machines only synced together (Clock + position in the pattern) for the rest I want them to not be connected at all.
What is the best setting on both machines to achieve this?

Thanks.
