Selling Genoqs Nemo hardware sequencer, photos at <http://flic.kr/s/aHsjJcsiBi> . Pristine, like new condition, original box, power supply, manuals. \$1500 USD. Bought new from Shawn at Analoguehaven, never came out of box. Very cool, check out SOS review at <http://www.soundonsound.com/sos/feb09/articles/genoqsnemo.htm>. This is a midi sequencer, step oriented, but can also record MIDI in realtime. Great for matching with CV gear via a Kenton, A4 or QuNexus.

Somewhat like an Octatrack or A4, but is a dedicated MIDI sequencer with 4 lanes x 16 steps. Each step is a little ball-bearing that rolls in place (!) with an LED, not just a button. Very sexy feel, unique.

- Nord Modular Keyboard, G1, great condition, \$700 USD. Includes printed manual. <http://flic.kr/s/aHsjJcv4Ty>

- Mackie Control Universal Pro (\$800), perfect condition. Will post photos in same Flickr account (kconnor9000).
