Having our second baby very soon and need to get rid of gear I'm no longer using, having to work in-the-box a lot more from now on!

Dave Smith Tempest

Excellent Condition, a couple of tiny flecks of dust have made there way under the lcd, not bothered me enough to open it up and remove them but would be easy to do so!

Â£1000

Norwich UK

Buyer pays shipping

Both items come with all original packaging, PSUs, manuals etc.

If some crazy fool would like to buy both, then possibly a mega deal could be had ;)
