Buying a new bass guitar and unloading some extra I/O. Black Lion Audio signature modified Digidesign 002R. Sound quality is absolutely unreal and mixing results have been great.

BLA SIG Mod 002r :Rackmounted in smoke free studio, functionality of the unit is up to spec, cosmetically there are some scratches on the top and bottom of the unit, and the headphone volume + monitoring encoders have been replaced. Nothing that affects audio signal. $660 shipped.

Moog Sub Phatty: Purchased new in June 2013, used for some demos and pre-production in smoke free studio. Practically like new, comes with box, manual, moog puzzle, etc. $850 shipped.

Shipped from Chicago, IL, payment by paypal.

Send a PM if there are any questions.
