OP-1 for Analog Four in Milwaukee, WI

Posted by natrixgli - 2013/09/04 01:25

Hi,

I have GAS for an A4 all of the sudden. I'd like to put my OP-1 up for trade.

If you're in the area and want to work something out, let me know. I can add cash, or other stuff if you want. I've got a few additional items:

- A Korg Nanokontrol
- A Pair of almost new DR Pro 36" studio monitor stands
- An Akai ME-30P programmable 4x8 MIDI patch bay
- A M-Audio Duo analog/digital converter (1/4" or XLR to S/PDIF)

PM me if interested!

BUMP! Also interested in other analog synths, preferrably modern stuff with MIDI like DSI, etc.
