FS (EU): Access Virus ti2 Desktop

Posted by ping panic - 2013/09/22 01:51

Hi,

I'm selling my Virus Ti2 Desktop.

I bought it second hand and it's out of guarantee.

It's working perfectly and upgraded to the latest firmware.
Knobs are not wobbly at all and they respond completely ok.

The first owner of it told me he barely used it but suffered from moving to one house to another.
So, it's perfectly working and a it's in good shape (screen is in perfect condition with no scratches) but has some stripped paint on the sides and a little hit on a corner (check 5th pic). I'm uploading some pics for you to check it. Overall condition is nice but I don't want anybody to feel cheated.

USB cable and AC adapter included
Price is 860 euros with shipping included (tracking and insurance)

cheers!
