
Ozone - GLM (Rough Live Mix) - 100% Trinity Techno

Posted by Ozone - 2013/09/22 10:52

Here is a track I recorded down a month ago. This was the best take, although missing a bunch of the audio layers and initially set up as a 10 minute track, this 6.5 minute progression I thought seemed viable to upload.

All basslines made via machinedrum, along with percs.

Melodic lines are Monomachine.

Kick drum, additional percs and extra layers via the Octatrack.

Thanks for listening :)
