## Monomachine and MD track

Posted by cchocjr - 2005/05/27 06:06

---

[http://students.kennesaw.edu/~cec2783/music/mono\\_tekno.mp3](http://students.kennesaw.edu/~cec2783/music/mono_tekno.mp3)

Here is my first outing with my new SFX60. BD, SD, OH, CH, and CP are courtesy of my trusty MD. All other percussive elements are from the MM.

Feedback is appreciated...good, bad, or indifferent. This posting is more or a right of passge than a proper track. Actually, it is comprised of one MD pattern and one MM pattern--all build ups and break downs are just track mutes done on the fly.

The synthlines aren't too complex, but I find them to be quite lovely...

cchocjr

I fuckin' love these boxes!

yeah, this track is cool - and sounds fantastic! Excellent work. Soon I will be in my new place and able to tweak again.

Its like the me and you other people here are frantic and only concerned with when they are gonna get back in front of their elektron boxes! Anyone else get that vibe here?

Hehe, that's right.

I really hate DHL if they won't deliver it today :(

It was sent out on wednesday...
