
For all the MonoMachine SFX-6 users...

Posted by - 2005/05/29 18:47

How do you go about creating songs on this unit?

Do you have any (detailed) tips that you would like to share?

this actually applies to ALL MnM owners, not just the SFX-6 owners....

but anyway, my style is very melodic so normally I'll just come up with a few (or a bunch of) patterns based around a certain melodic theme and sound. then I'll try developing a progression from there that I like. that usually spurs more ideas for the rest of the tune and before I know it, I'm done!
