"... Monomachine OS .1.05c "kent" Bugfixes...

...When using lots of Chord-notes or MIDI Machine-notes the sequencer could loose track of the notes leading to all programmed notes of that type being lost. Fixed....

...MIDI Program change was send just after the MIDI Note when it should have been send just before the MIDI Note. Fixed.

When changing to a new kit with a different MIDI Program change setting no MIDI Program Change message was sent unless a lock was set or the MIDI Program Change encoder was adjusted. Fixed...."

go elektron!! 8-)

wow, and they fixed the CTR-AL machine automation bug i just reported to them just a few days ago!

and might i say it's working!

great job Elektron!!!
