
The elements will melt

Posted by Allerian - 2005/07/10 05:27

Did this track today. Love the MM :)

Important listener note: The distortion and transient noises you hear on this track are intentional. It is processed to be Certified 100% non-clipping and speaker-safe for your acoustic pleasure.

Everything but the vocals are pure MM.

Cool track! People don't use the VO enough, I say.

I hear that - its hard to use the VO synth!

this was a cool track - I really like that the smashing sound was a monomachine and not an MD. Well smashed!
