
Gruesome Twosome Science Labs Sign-up Sheet

Posted by papertiger - 2008/08/05 03:24

If you are interested in signing up for the latest Science Lab please post the following in this thread:

Name:

Machine or Machines: (be sure to specify classic/mkI or mkII, UW/non-UW)

The details are still being worked out, but essentially this round will involve randomly-matched pairs of Elektron-users members collaborating on patterns under restricted Science Lab conditions. Pandemonium, mayhem, cool tracks, sonic sketches, and maybe musical partnerships will ensue.

Would love to join this since lab as well. The problem is I'm off to Portugal (Boom festival :D) for few weeks. When do you plan deadline for it? I'm back on 28th August. If there is sufficient time count me in. If not, no worries I will have a go next time.

MD UW classic.

Koshimazaki, you'll have plenty of time. We haven't set an official date but it will likely be mid-to-late September.

I'm in -> SPS1 Classic. :)

EDIT: Just thought on... I could make exclusive samples for someone who wants to compose with a UW... Not that many active members on here have the good old SPS1. *commence ramble* I had planned to add the UW at a later date but then they went and made version 2 models and my plan fell apart. :angry:

Time's running out to sign up, everyone. We'll leave this open until the end of Monday, September 1 (don't get cheeky with time zones), then it's time to work on the lesson plan.

Hope everyone is having a good (long) weekend.
