
Call for Eletron related music

Posted by pete - 2005/07/07 20:15

Hi,

I would like to invite everyone over here to provide some music for my radio show. I have a FM radio show on Radio Banzai and also a 24 hour internet broadcast at www.eatconcrete.net. It would be a nice idea to make a compilation of Eletron related music...a special broadcast dedicated to these wonderfull machines:). If anyone's interested: please send me an email.

In meantime, check out my site at www.eatconcrete.net, where you will find the stream and can download about 15 mixes.

Cheers,

Pete

Pete,

You might want to go through the files that people have uploaded here. When you find tracks you want to spin, email the artists for permission. I'm sure they'll be cool with it.

/Scott

there is some on my site too - but mostly I uploaded or referred to songs here - just let me know if you want them. I mean, its not elektron only, but elektrons products are usually at the core of my stuff.

Thanks for your contributions/reactions....I have heard some and will listen to the rest as soon as possible. First get some sleep:) I will let you all know in meantime.

Cheers,

Pete.

i have a new track online which you're welcome to use. it's mainly MD except some MS2000 for the bassline and floaty bits

<http://www.arseyrob.com/mp3s/TheresATigerOnTheBoat.mp3>

just be sure to credit Arsey Rob

ta!
