## 5 minute doodle

I just love the md & mm for instant music fun. Composed this loop in 5 minutes (while drunk). Probably sounded better whilst drunk too! Let me know what you think. Is it time to give up the day job ;)

Yeah, it is markedly shorter than 5 minutes. Hmmmm. Beyond that, it sounds very nice. Is the acid stuff coming from the MNM? If so, you will have to bless the mic and give us some pointers.

Look forward to your output, sober or otherwise.

oh, so it took five minutes to come up with this clip? kind of sounds like it, though the 303/acid sound is pretty convincing. pretty neat but no, don't quit your day job. :)
